

Project Manager, StrataGen Systems

A DDS Wireless International Company, StrataGen Systems Inc. is an international leader in the transit industry, providing enterprise-wide and service based software & hardware solutions to transit agencies of all sizes, focusing on Demand Response, ADA compliant and Special Needs providers.

StrataGen is pleased to offer an exciting new opportunity - *to inspire process improvements and build coalitions across multiple business units*, as Project Manager, StrataGen Systems.

The Role:

Reporting to the Director of Project Management, you will achieve project objectives by managing scheduling and cost performance for technical integration projects, including technical resources, subcontractors and suppliers, by creating and managing master schedules, material and labour financial forecasts, statements of work for subcontractors, and purchase requisitions. You will travel to customer sites for project and design reviews and testing activities, and support new business initiatives through proposal preparation and other functions.

Candidate Profile:

As the ideal candidate, you have a Bachelor's degree in either technology or business, and two to five years of related experience with enterprise systems, including scheduling/dispatch, information technology, and IVR/Web. You are a dedicated, responsible and energetic high achiever, and your exceptional communication and interpersonal skills make you an outstanding team player.

We Offer:

- The opportunity to manage a wide variety of projects within a global and fast-paced business at the forefront of its industry with significant opportunity for growth.
- The variety, challenge and scope you need to advance your career
- The possibility of advancement within the DDS group of companies
- A competitive salary and comprehensive benefits package, including extended health care and retirement benefits.

If you recognize the exciting potential of this rare opportunity, please submit your resume and cover letter to careers@stratagen.com. Please reference "Project Manager – StrataGen Systems" in the subject line.

We thank all applicants in advance for their interest, however, only those candidates selected for an interview will be contacted. No phone calls please.

DDS Wireless International Inc., a TSX listed publicly-traded company, is a global provider of end-to-end wireless mobile data solutions to multiple markets focusing on real-time dispatching, vehicle location and tracking, and computerized routing and scheduling through its four market-focused businesses.
